Note 1 - General Information

Ben Oldman Loan partners S.à r.l., hereinafter the "Company", was incorporated on July 31, 2014 and is organised under the laws of Luxembourg as a "société à responsabilité limitée" for an unlimited period. The Company is organised under the laws of Luxembourg, in particular the law of August 10, 1915 on commercial companies, as amended.

The registered office of the Company is established in Luxembourg city and is registered at the Trade and Companies register in Luxembourg under the number B 189 555.

The financial year of the Company starts on July, 1 and ends on June, 30 of each year. Exceptionnaly, the first financial period runs from the date of incorporation to June 30, 2015.

The purpose of the Company is the acquisition of ownership interests, in Luxembourg or abroad, in any companies or enterprises in any form whatsoever and the management of such ownership interests. The Company may in particular acquire by subscription, purchase, and exchange or in any other manner any stock, shares and any other securities, including without limitation bonds, debentures, certificates of deposit, trust units, any other debt instruments and more generally any securities and financial instruments issued by any public or private entity whatsoever, including partnerships. It may participate in the creation, development, management and control of any company or enterprise. It may further invest in the acquisition and management of a portfolio of patents or other intellectual property rights of any nature or origin whatsoever.

The Company may borrow in any form, except for borrowing from the public. It may issue notes, bonds, debentures and any other kind of debt and/or equity securities, including but not limited to preferred equity certificates and warrants, whether convertible or not in all cases. The Company may lend funds, including the proceeds of any borrowings and/or issues of debt securities, to its subsidiaries, affiliated companies or to any other company. It may also give guarantees and grant security interests in favor of third parties to secure its obligations or the obligations of its subsidiaries, affiliated companies or any other company. The Company may further mortgage, pledge, transfer, encumber or otherwise hypothecate all or some of its assets.

The Company may generally employ any techniques and utilize any instruments relating to its investments for the purpose of their efficient management, including techniques and instruments designed to protect the Company against creditors, currency fluctuations, interest rate fluctuations and other risks.

The Company may carry out any commercial, financial or industrial operations and any transactions with respect to real estate or movable property, which directly or indirectly, further or relate to its purpose.

Note 2 - Summary of significant accounting policies

Basis of preparation

These annual accounts have been prepared in accordance with Luxembourg legal and regulatory requirements under the historical cost convention. Accounting policies and valuation rules are, besides the ones laid down by the law of December 19, 2002, as amended (the "Law"), determined and applied by the managers of the Company (the Board of Managers).

The preparation of annual accounts requires the use of certain critical accounting estimates. It also requires Management to exercise its judgement in the process of applying the accounting policies. Changes in assumptions may have a significant impact on the annual accounts in the period in which the assumptions changed. Management believes that the underlying assumptions are appropriate and that the annual accounts therefore present the financial position and results fairly.

The Company makes estimates and assumptions that affect the reported amounts of assets and liabilities in the next financial year. Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Significant accounting policies

The main valuation rules applied by the Company are the following:

Formation expenses

The formation expenses of the Company are directly charges to the profit and loss account of the year in which they are incurred.

Financial fixed assets

Financial fixed assets are valued respectively at purchase price or nominal value including the expenses incidental thereto.

In the case of durable depreciation in value according to the opinion of the Board of Managers, value adjustments are made in respect of financial fixed assets, so that they are valued at the lower figure to be attributed to them at the balance sheet date. These value adjustments are not continued if the reasons for which they were made have ceased to apply.

Debtors

Debtors are valued at their nominal value. They are subject to value adjustments where their recovery is compromised. These value adjustments are not continued if the reasons for which they were made have ceased to apply.

Foreign currency translation

The Company maintains its accounting records in Euro (EUR) and the balance sheet and the profit and loss accounts are expressed in this currency.

Transactions expressed in currencies other than EUR are translated into EUR at the exchange rate effective at the time of the transaction.

Formation expenses and long term non-monetary assets expressed in currencies other than EUR are translated into EUR at the exchange rate effective at the time of the transaction. At the balance sheet date, these assets remain converted using the exchange rate at the time of the transaction (the "historical exchange rate").

Cash at bank is translated at the exchange rate effective at the balance sheet date. Exchange losses and gains are recorded in the profit and loss account of the year.

In accordance with prudence principles found within generally accepted accounting principles in Luxembourg ("LuxGaap"), other assets are translated separately, at the lower of the value converted using the historical exchange rate and the value converted using the exchange rate at the balance sheet date. Conversely, other liabilities are translated separately, at the higher of the value converted using the historical exchange rate and the exchange rate at the balance sheet date. Consequently, both realised and unrealised exchange losses are recorded in the profit and loss account while exchange gains are recorded in the profit and loss account when realised only.

Where there is an economic link between an asset and a liability, these are valued in total according to the method described above and the net unrealised losses are recorded in the profit and loss account while the net unrealised gains are not recognised.

Subordinated and non subordinated debts

Debts are recorded at their reimbursment value. Where the amount repayable on account is greater than the amount received, the difference is shown as an asset and is written off over the period of the debt based on a linear method.

Current tax provisions

Provisions for taxation corresponding to the tax liability estimated by the Company for the financial years for which the tax return has not yet been filed are recorded under the caption "Tax debts". The advance payments are shown in the assets of the balance sheet under the caption "Other debtors", when applicable.
